

PARAGON INFORMATION COMMONS

THE STORY

Paragon's Intuitive-IC is the system designed to help you prepare for the move from a traditional Library and Media Center to the technology driven environment of the Information Commons.

Taking its roots from simpler times when communities shared communal land, the Information Commons is the modern academic equivalent of a common space used for the processes of information gathering and social collaboration. It is where enlightenment meets interaction. Knowledge fosters education.

Intuitive-IC lets you address your current storage and display needs while offering collaborative working spaces, technology hubs and seating solutions. You have the tools for practical transformation of your space in the digital age.

PARAGON INTUITIVE-IC SYSTEM

SPEC
Intuitive-IC, the Information Commons line by Paragon offers a unique 16 gauge Intuitive-4 post design with hidden cantilever shelving. Intuitive-IC offers clean lines and superior structural strength. Unitized frame structure supports 3/4" shelving with smart install single-shelf design for doubled-faced units. Integrated wire management in base unit allows for future addition of technology and lighting options. Shelf supports for divider accessory are built into adjustable shelves allowing for an attractive top shelf display area. Side panels add a finished touch of color. Watch your Intuitive-IC systems transform a room with the addition of flexible desking, bench seating, elevation changes and monitor displays.
