THE GREAT DIVIDE MODULAR WALL SYSTEM

The Great Divide is the first completely modular wall system, allowing you to add or subtract panels to change the wall length and to rearrange walls as your needs change. Available in two heights (6' and 8'), the user friendly Great Divide System consists of two modular components: starter sets and add-on sets.

Starter sets come ready to use, and include three wall panels (32"W each) and two end panels (27 3/4"W) centered perpendicularly to the wall panels for privacy and ease of joining sets. Add-on sets include two wall panels (32"W each) and are designed to join to starter sets to create a maximum wall length of 24'. An optional ganging device is available to join end panels together to create wall lengths greater than 24'.

Both starter sets and add-on sets are available in three different panel materials: fabric, dry erase markerboard or decorative laminate.

STARTER SETS - 6' HIGH

| MODEL | ITEM | DIMENSIONS | WEIGHT | PRICE |
|-------|------------------------|--------------------|----------|--------|
| 74768 | Fabric - Medium Gray | 6'H x 8'1"W x 30"D | 110 lbs. | \$2006 |

| 74785 | HPL Dry Erase Board | 8'H x 5'4"W x 3"D | 57 lbs. | \$1049 |
| 74791 | Laminate - Oak | 8'H x 5'4"W x 3"D | 57 lbs. | \$962 |

GANGING DEVICE (For wall lengths greater than 24')

| MODEL | ITEM | PRICE |
|-------|----------------|-------|
| 56345 | Ganging Device | \$65 |

The tackable fabric panels add extra sound-absorbent qualities to the wall system, are flame-resistant and easy to clean, and come in either deep sea blue or medium gray. Markerboard panels add function and versatility to any Great Divide configuration, and feature a high pressure laminate dry erase surface that provides smooth writability, easy erasability, and exceptional durability. The decorative laminate surface option, with its high-end natural cherry finish, adds an upscale and modern element to any environment.

Each panel comes framed in 16-gauge and 18-gauge steel for unmatched stability and durability, and features unique hinges that lock in a variety of angles for a maximum flexibility in creating configurations. Dual-wheel casters for easy maneuverability are included. The end panels of starter sets include locking casters for added stability. The casters are attached to 18-gauge steel legs with an innovative spring suspension system that keeps the panels level on any surface. The Great Divide all system carries a five year warranty.

MILLER MULTIPLEX DISPLAY & EXHIBIT SYSTEM

Versatile free-standing display panels

- Easy to put up and take down
- Store flat when not in use
- Modular design for unlimited flexibility

Many configurations can be set up with Multiplex display panels. Each panel includes a set of flat, 90 degrees and 120 degrees connecting brackets to allow a variety of angles to be achieved between any number of connecting panels. All steel, fully-welded frame finished in gray baked enamel. Simple nut and bolt assembly of the panels to each other takes only minutes! Or, use free-standing single panels with optional display panel feet.

Display Loop Fabric - The most attractive and versatile display panels available. Simply attach hook tab circles to the back of display items and press into position on the loop fabric surface. Soft, velour-like fabric is available in colors shown. Can also be used as tack-board.

Vinyl Covered Tackboard - the ideal display surface for lightweight items which can be attached with thumbtacks, push-pins or staples. The rich-looking textured surface retracts as pins are removed, retaining its original appearance. Portable Full Size Panels Offer Versatility Link together to make almost any configuration. 4' wide by 5 1/2' high display area (overall height 6 1/2'). Display Panel Feet: (Sold separately) Each foot has two adjustable, nylon glides and snap-lock feature to secure feet to panel. \$50.00 (Model No. F-056-G)

FREE STANDING DISPLAY PANELS (Set of 3)

| Model | Panel Surface | Panel | Frame | Size | Height | Price |
|-------------|---------------|--------|-------|-----------|--------|------------|
| DE3-456LT-S | Fabric | Silver | Gray | 48" x 66" | 78" | \$1,009.00 |
| DE3-456LT-B | Fabric | Blue | Gray | 48" x 66" | 78" | \$1,009.00 |
| DE3-456VT | Vinyl | Gray | Gray | 48" x 66" | 78" | \$787.00 |

Scaled-Down Panels Let Children Create Their Own Eye-Level Displays

These scaled-down panels are sized just right for children. Versatile panels encourage group participation and expand learning activities. Use as individual panels or combine to form multiple configurations for day care centers, church activities, early learning applications and more. Sturdy square steel tubing completely welded forms a one-piece unit. Panels also feature steel channels to hold the filler intact. Available in Display Loop fabric tackboard. (See description above.)

- Ideal classroom dividers; won't block teacher's view
- Materials attach easily, even for tiny fingers
- Panels measure 40" x 48" with an overall fixture height of 4' 7"
- Each panel includes a set of feet for greater stability

MILLER MULTIPLEX SYSTEM 8000 DISPLAY

Free Standing Wing Display

Shown with twenty 30" x 40" Display Loop Panels with protective Multiglas panels.

Free Standing Floor Displays

Finished in neutral gray baked enamel, units are available in two panel sizes: 24"W x 36"h, or 30"W x 40"h. Panels conveniently swing open to a 90 degree angle for easy viewing and visual appeal. Comes with 10 two sided panels. The free standing unit is designed to hold 20 panels to allow for expansion. Additional panels are available in packs of 5.

Wall Mounted Displays

Wall Units have a "built-in look" and are perfect where floor space is tight. Comes in a gray metal finish, in two panel sizes. Comes with 10 panels. Standard support is designed to hold 20 panels to allow for expansion. Additional panels are available in packs of 5.

System 8000 Swinging Panel Displays

Show a roomful of material in a fraction of the space! Show volumes of material with the System 8000 Display. The System 8000 is industrial strength with welded 5/8" square tubing framework. Front and back of panels are great for displaying class composites, large drawings/photography, posters and much more. System 8,000 has helped schools, libraries, museums, churches, stores, offices, hotels & conference centers show more in less space for over 90 years

Your Choice of Panels!

White Mat Board - the economical choice, white mat board on both sides of corrugated panel core with durable sheets of Multiglas on both sides to protect your display materials from dirt, damage and fading. Use spray adhesive or double-faced tape to mount display materials. Display Loop Fabric - the most attractive and versatile display panels available. Simply attach hook tab circles to the back of display items and press into position on the loop fabric surface. Multiglas on both sides covers soft, velour-like loop fabric, available in blue, silver, and black.

- Up to 40 Viewing Surfaces
- Sturdy Construction
- Your Choice of 2 Panel Surfaces
