

COMMUNITY SCIENCE TABLES

Stockton science tables are available with powdercoat, chemsurf, epoxy resin or black laminate tops. The frames are available in either Oak or Maple wood species and offered in a variety of finishes. Additional options include compartments, drawers and boots. Stockton science tables are functional and built with the lasting quality and craftsmanship our customers have grown to expect when they specify Community.

DIVERSIFIED SCIENCE FURNITURE

FORWARD VISION 4 STUDENT WORKSTATION

The unique layout of this workstation allows the instructor to see the students, fixtures and storage areas from the

front of the classroom. While typical 4 student workstations have half of the students back and storage areas out of view of the instructor, this unparalleled workstation allows optimum visibility. The students all work from the same side of the workstation, while the storage is on the opposite side. The solid epoxy top withstands extreme chemicals and heat.

Overall dimensions: 96"W x 50"D x 36"H

DIVERSIFIED WOODCRAFTS ADJUSTABLE HEIGHT TABLE

This amazing table's height can be adjusted by one person without the use of tools in less than 30 seconds. Adjust only one end and you have an incline table for physics. Adjust to 27"H and use in elementary grades. Raise to 39"H for display work. Table adjusts in 2" increments from 27"H to 39"H. Table boasts a 500 lb. weight capacity. The 4 1/2"H solid oak frame with exposed metal corner braces complements the powder coated legs with adjustable glides. Available in four sizes with two top options, 1 1/4" plastic laminate or chemical resistant ChemGuard. Set of four casters available.
