

BALT MARKERBOARDS

PORCELAIN STEEL MARKERBOARDS

For a dry erase board that withstands the test of time, there is simply no better choice than our porcelain steel markerboard surface. A layer of low gloss magnetic steel is laminated to a 7/16" thick MDF substrate for superior strength, durability, and moisture resistance. The surface is specially engineered to create greater color contrast with dry erase markers, and to provide smooth writability and easy erasability with no ghosting. Porcelain steel also offers reduced surface light distortion which enhances visibility to provide optimum eye comfort. Trimmed in anodized aluminum, the boards include a full-length tackable map rail and a full-length accessory tray with protective Dura-Safe® rubber end caps. Mounting hardware is included.

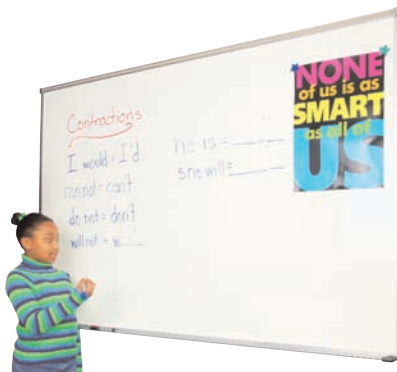

MODEL	ITEM	DIMENSIONS	WEIGHT	PRICE
202AB	Porcelain Steel Board	2'H x 3'W	22 lbs	\$138.00
202AC	Porcelain Steel Board	33 3/4"H x 48"W	25 lbs	\$256.00
202AD	Porcelain Steel Board	4'H x 4'W	69 lbs	\$305.00

202AP	Porcelain Steel Board	4'H x 16'W	290 lbs	\$1172.00

Full length enclosed tackable map rail.

Rubber Dura-Safe® end caps.

GREEN-RITE® ENVIRONMENTALLY FRIENDLY MARKERBOARDS

The Green-Rite® markerboard is the original and only markerboard produced through sustainable environmentally and socially responsible business practices. The porcelain steel dry erase board provides superior writability, erasability, and color contrast, and is manufactured in the USA under strict quality control specifications. The steel component contains up to 30% recycled content. Volatile organic compound (VOC) emissions are less than 0.1 mg per cubic meter. The board contains no detectable VOCs that are known or suspected carcinogens. The substrate contains no added urea formaldehyde binders and adhesives and is ANSI A135.4-2004 compliant. The board also complies with California Air Resources Board (CARB) and with Airborne Toxics Control Measure (ATCM) (Title 17, California Code of Regulations, sections 93120-93120.12). The board surface is framed in recyclable anodized aluminum trim.

ABC PORCELAIN STEEL MARKERBOARDS

Bridging the gap between superior durability and economy, the ABC Markerboard couples a porcelain steel dry erase surface with a slimmer, more budget-friendly trim. The versatile board provides superior writability, erasability, and color contrast, and doubles as a magnetic bulletin board. The anodized aluminum trim is accented with plastic corner caps and includes a full-length aluminum accessory tray with plastic end caps to soften sharp edges. Mounting hardware is included.

BALT MARKERBOARDS

PLATINUM REVERSIBLE BOARDS

Add an elegant and modern element to any room with our Platinum Reversible boards. With twice the functional surface of a traditional wall-mounted board in about the same space, these mobile boards are ideal for presentations, meetings, training, and other group instructional situations. Each board is double-sided and available in a variety of surface combination options including porcelain steel markerboard, Projection Plus® multimedia surface, Dura-Rite® high pressure laminate markerboard, Magne-Rite markerboard, and natural cork tack surface. Porcelain steel, Projection Plus® and Magne-Rite surfaces all double as magnetic bulletin boards for even more functionality. Board surfaces are framed with our elegant anodized aluminum Euro trim with rounded injection-molded plastic corners. The board rotates 360° on a pivot hinge and locks into place with the turn of a knob. A stylish perforated steel panel serves to add support to the unit, and also doubles as a storage area for magnets, markers, and erasers. The wide base design adds stability, and the unit includes 3" locking casters for mobility.

DELUXE REVERSIBLE BOARDS

Get twice the functional surface of a wall-mounted board in about the same amount of space with our deluxe reversible boards. Each mobile board is double-sided and available in a variety of surface combination options including porcelain steel markerboard, Dura-Rite® high pressure laminate markerboard, Magne-Rite markerboard, graphic markerboard, and natural cork tackboard. Both porcelain steel and Magne-Rite surfaces double as magnetic bulletin boards for even more functionality. The boards are available in three sizes: 40"H x 30"W, 4'H x 5'W, and 4'H x 6'W. Each surface includes a full-length accessory tray to store markers and erasers. The board rotates 360° on a pivot hinge and locks into place with the turn of a knob. The deluxe reversible board fits into any meeting, training or classroom with ease. The wide base design adds stability, and the unit includes 3" locking casters for mobility.

BALT TACKBOARDS

50 Year Warranty

Environmentally friendly board made with 100% recycled rubber!

RUBBER-TAK TACKBOARDS

An environmentally friendly tackboard surface, the award-winning Rubber-Tak board is ideal for the ecologically-conscious school or company. The uniquely textured surface is manufactured from high-density, 100% post-industrial and post-consumer recycled rubber to provide eco-friendliness as well as unmatched durability and resiliency. Pin holes virtually disappear into the self-healing surface. The rubber is moisture-resistant and will not support the growth of mold, mildew, or bacteria, making it an exceptional choice for health care environments. Rubber-Tak is also stain resistant, non-fading, and easy to clean and maintain.

The rubber offers superior sound-and shock-absorbent qualities and is nearly impossible to tear, making the board perfect for high traffic and athletic environments, such as hallways and gyms. Rubber-Tak also makes an ideal tackboard surface for offices, meeting rooms, or classroom, adding an element of color and style. The board comes standard framed in anodized aluminum trim and includes mounting hardware.

BALT TACKBOARDS

Black aluminum trim with rounded plastic corners.

Natural cork is an environmentally friendly, renewable resource!

Vinyl surface is treated to be anti bacterial and is easy to maintain.

BLACK SPLASH-CORK TACKBOARDS

The Black Splash-Cork Board is produced through sustainable environmentally and socially responsible business practices and is made in the USA under strict quality assurance specifications. The low VOC (volatile organic compound) emitting board contains no detectable known or suspected carcinogens and complies with California Air Resources Board (CARB) regulations. Additionally, the substrate of the board contains no added urea formaldehyde binders and adhesives. The unique Splash-Cork surface consists of a 1/16" thick layer of natural cork adhered with a binder containing 100% recycled rubber. The cork is then laminated to a 3/8" thick layer of insulation board. The resulting surface is durable, self-healing, and environmentally responsible. The board comes framed in black Presidential trim, featuring lengths of rounded black anodized aluminum joined with rounded black plastic corners for a safer board.

VALU-TAK TACKBOARDS

Featuring an economical and environmentally friendly tackboard surface, Valu-Tak boards provide a quality surface at a budget-friendly price. The 100% natural cork used on the board is a renewable resource, harvested responsibly from cork trees to allow a useful life of more than 150 years for each tree. The cork surface is bonded to a 3/8" thick layer of insulation board for excellent tack-holding qualities. Factory framed in anodized aluminum trim, Valu-Tak boards include mounting hardware.

VIN-TAK TACKBOARDS

For a durable, economical and easy to maintain tackboard, our Vin-Tak board is the perfect choice. Ideal for any office or classroom environment, the board features durable fabric-backed vinyl laminated to a 3/8" thick layer of insulation board to provide a strong and attractive tack surface. The vinyl fabric cleans easily with detergent and water, and is treated to resist bacteria, mold, and mildew. Pin holes virtually disappear into the self-healing surface. Available framed in anodized aluminum trim, the board includes mounting hardware.
