## prep tables

### **Gather.** Coming together.

To relax, to learn, to dine, to work, to wait or just to be near others. Whatever the reason, Community provides all kinds of furniture for the places where people gather. Chairs, stools, lounge and bench seating that is designed and crafted for comfort and durability. Tables and casegoods for both work and play. From the smallest to the largest, anything and everything is just a call away.

### **Dine.** Eating a meal.

Whether in a pub, a corporate cafeteria, a food court, a banquet hall, a hotel, restaurant or refined establishment, the basic needs are the same - a comfortable chair and a sturdy table. With time-tested selections of standards, mixed materials and customized solutions we've got a table and chair combination for you.

### **Learn.** Gaining knowledge or skill.

From early childhood through college, and then continuing with career enhancements, life lessons and recreational enterprises, we constantly strive to improve ourselves. With seating, desks, training tables, storage and support devices, Community supplies the tools needed for teachers and pupils to achieve their goals, and to reach for new ones.

**training & multipurpose** Wherever you find meetings, dining, training, conferencing, working, gathering, networking or studying, you're sure to find **prep** training and multipurpose tables.

Be prepared for any situation with the **prep** offering from Community.

### Multi-Purpose Tables

Prep multi-purpose tables are easy to order. Choose from a variety of top shapes and sizes with various base configurations to create a table that will fit your particular application. Whether you are creating a gathering, dining or learning space, you are sure to find the features and options you need for a successful specification. Also, you may call a Community customer service representative or reference the price list for helpful guidelines when you are creating configurations.

### Bases

Available as either T or X styles in two powder coat colors. Bases are offered with glides for spaces where the table will be stationary and with casters for those specifications that require mobility. Glides offer the added benefit of adding leveling ability for the top surface in cases where floors may be uneven. Casters and glides can be interchanged in the field and table top heights will remain the same.

### Tops

With six shapes and five linking tops, it's a snap to configure a room for gathering, dining or learning. And with available laminates and edges you can create the look you want, from fun and funky to corporate conservative. And for something truly unique, be sure to inquire about Community's custom decorative top option.

### Options

Multipurpose tables can be specified with a number of available Prep options from casters and glides to wire management and modesty panels. Make your Prep multipurpose table just that, multipurpose!

### Preconfigured Training Tables

Specifying tables for training shouldn't be complicated! With that in mind, Prep offers completely preconfigured training tables with optional linking and power kits that will make your job (and life) easier. Training packages include tilt tops, integrated modesty panels and dual wheel locking casters. A non-directional, non-sequential power kit is available in either a one or two circuit grid, while a simple to use linking kit will keep your tables together.

### Tilt & Nest

Training rooms are often used for more than one function, so training tables may need to be removed and stored. Tilting and nesting provides ease of movement and compressed storage. Prep training tables may also be tilted and stored with optional power kits in position.

### Non-Directional, Non-Sequential Power

A non-directional, non-sequential electrical package allows for power in virtually any configuration. Simply disconnect each table, change the configuration, and reconnect the tables no matter the order no matter the direction. Power in-feed cables can be attached to whichever end of a configuration is closest to your power source.

### Quick Disconnect Power Option

For multi-use training spaces, where the configuration may not change but the tables are often stored, a quick disconnect power option is offered. A quick disconnect wall outlet combines the durability of a hard-wired system with the convenience of a plug for dependable power and quick table storage.

### questions?

[www.communityfurniture.com](http://www.communityfurniture.com)

#### integrated modesty panel

Perforated metal modesty panels are powder coated and integrated onto tilt bases for added stability. Color matches base selection.

#### wire management

Optional vertical wire management helps control and guide cords from the floor to the table top. Available in black or silver and field installed.

#### tilting mechanism

Tables are tilted with a release handle centrally located under the table top. Pull the handle to activate the cable release mechanism and easily raise the top into the tilted position for storage or transport. To return, just tilt the top back to the work position until the mechanism locks.

**Tops**

Tops are available in any Wilsonart standard laminate in a variety of shapes and sizes for multipurpose applications. Preconfigured training table tops are available in several rectangle sizes with quarter round and wedge linking tops.

**Edge Options**

**3mm PVC**

aluminum

**Bases**

Every base is powder coated, providing long lasting beauty and durability in high-traffic environments. Prep welded steel bases are produced in T, cantilever T, X and X4 configurations in standard, counter and bar heights with base rail lengths matched to top sizes.

**Base Options**

**Powder Coat**

silver bullet

black sandtex

**glide & caster**

Nylon glides are standard on all fixed multipurpose bases and can be used to level tables on uneven surfaces. Locking dual wheel casters are standard on all training tables and multipurpose tilt/nest bases.

**standard pvc edge**

3mm PVC edges are available in 5 solid colors and 4 wood grains, with matching, complementing or contrasting laminate tops. The eased edge profile is standard on all Prep tops.

**acrylic edge**

Optional 2mm acrylic edges are available in titanium or aluminum colors. Acrylic edges incorporate the same eased edge profile that is standard on all Prep tops.
