VERSTEEEL

Immix™ IMMIX™ MODULAR BENCH SYSTEM.

Immix modular bench system from *Versteel*® allows for the creative configuration of any seating need. Combine normal and bariatric in a single bench for healthcare, fit benches and tables to architectural elements for hospitality, or simply make a space more interesting with an alternative shape. Add backs, arms and even power/data for maximum comfort and utility, all built with the strong frame structure that you expect from Versteel.

Immix is the answer.

MIX, BLEND AND MINGLE.

AVAILABILITY 22° 33° 44° 55° 66° 30° 45° 60° 90°

FRAMES OF VARIOUS LENGTHS AND ANGLED CURVES WILL LINK AND CONNECT TO CREATE ALMOST ANY SHAPE. REFER TO THE VERSTEEL PRICE LIST FOR COMPLETE SPECIFICATIONS AND AVAILABILITY, BUT BE SURE TO CHECK [WWW.VERSTEEL.COM](http://WWW.VERSTEEL.COM) BECAUSE WE'RE ADDING NEW FEATURES ALL THE TIME.

**BENCHES** *The building blocks.* Choose a frame length and then choose how you want it configured, creating mixed use benches by combining standard or bariatric seating with tables. Connect any number or size of benches to form shapes. **SHAPES** *Your space is unique.* With the standard lengths and curves, you can build a unit to fit almost any environment. And if you are dimensionally challenged, contact our Customer Service team for some engineering expertise. **ARMS & BACKS** *Total specification flexibility.* Add arms and backs to make chairs and couches, or to delineate a seating plan in a waiting or lounge area. Arms are available as standard (mixed material), fully upholstered or two-sided for backless benches. **OPTIONS** *A little something extra.* Get the most out of your bench by adding a custom finish, power/data, wire management, bolsters, and tablet arms. An Immixon bench can be more than just a place to sit.
