

Roma™

the perfect everywhere chair

Roma™

Roma™ is one of those wonderful chairs you can use just about anywhere.

Roma is a great looking chair that fits you and just about anywhere you need a place to sit down. From the office to the home, to the college dorm or the hotel work desk, Roma fits the bill and without taking up too much space.

The breathable mesh back is available in six colors with matching or contrasting upholstery fabrics for the seat. Upholstered seats and backs are offered in a large selection of vinyl, fabrics, or leathers.

Roma™

Roma's flexible polypropylene back changes shape as you move.

Roma's available flexible polypropylene back is not rigid, it allows the lumbar area and upper back to move and flex. It changes shape to accommodate your body movements, body shape and the tasks you are performing.

The entire back is under constant tension to provide a comfortable floating motion that moves when you do, or it can be locked in an upright position for additional support.

Roma™

It's your choice. Six great mesh colors let you make it your own!

The chair frame, arms and base are constructed of fiberglass reinforced nylon to withstand the most demanding environments and still look great year after year after year.

New to the Roma offering is the fully perforated Honeycomb style back. It provides a highly architectural look while still providing efficient air flow, lumbar support and exceptional durability.

Roma™

The Roma guest chair has a flip up seat for easy storage.

The beautiful guest chair is available in different back styles to match the other seating styles, Mesh back, flexible polypropylene back, and perforated honeycomb back. Choose the style that matches your task seating.

The guest chair features a flip up seat allowing the chairs to nest horizontally. This saves a considerable amount of space and avoids heavy lifting when space is reconfigured for different events.

Roma™
