

Tuck:
Now you
see it

Now you
don't

Meet Tuck – a high-density stacking chair that is always there when you need it – wherever you need it. And conveniently “tucks” away when not in use.

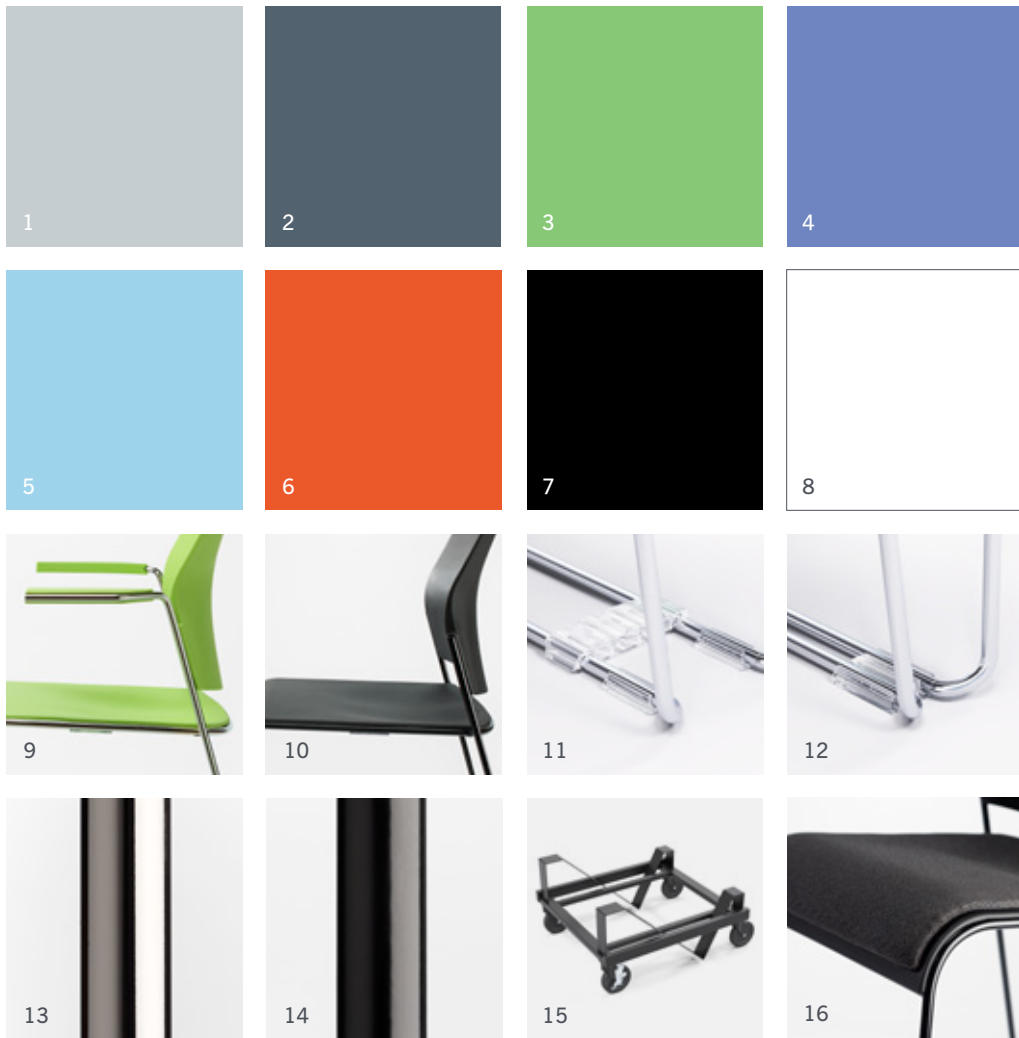

Who says a stacking chair can't be comfortable? Subtle curves in the seat and back provide ergonomic support for extended periods of time.

The simple, uninterrupted solid wire frame not only contributes to Tuck's stylish good looks, but also creates a streamlined surface that is effortless to clean.

“Collaboration is vital to the success of an organization. The ability to bring people together in productive environments now needs to happen any where and at any time.”

Todd Yetman, Designer

Visit the Tuck page on allseating.com.

Tuck can stack over 35 chairs high, making it a highly portable, storable and versatile seating solution that is ideal for educational, healthcare, and corporate environments. Its lightweight, yet highly durable frame makes it easy to move as the mood strikes.

Our manufacturing system conforms to the ISO 9001:2008 and 14001:2004 standards, and our warranty? It's the best in the industry.
