Barron® Tables

The Barron table has a classic design that never goes out of style. Its simple, contemporary lines make it appropriate almost anywhere, and its expansive product offering allows for customization of design and function.

Precision-crafted of tubular steel, Barron tables have a clean, finished appearance. The legs feature brazed joints – no exposed hardware or welding build-up – for a seamless transition from the base column to the base foot. Frames are available in state-of-the-art duplex nickel chrome plating or a wide variety of powder coated paint finishes. Laminated table surfaces are offered in a variety of colors and finishes from all major suppliers, allowing the tables to complement any décor.

Versatile Barron Tables accommodate any environment.

Barron tables are offered in a variety of sizes, shapes and configurations, allowing them to be used almost anywhere. Ideal for conference rooms, tables can also be arranged in a classroom setting, grouped together to form teaming tables or even used as simple desks.

Barron's optional rolling base makes it easy for one person to move the tables.

The nickel chrome finish offers a distinctive, contemporary look and unsurpassed durability.

Brazed joints create the appearance of single-piece construction.

Flipping or folding base styles allow for easy transportation and compact storage.
