TIM
 TIM® IS TABLES IN MOTION®

TIM tables from *Versteel*® offer a complete array of training and conference solutions. TIM is the only table with a built-in adjustable height system that also tilts, nests and folds, all in one package. With casters or glides, a cutting edge modesty, a snap-on wire management system, a complete array of power and data options and the material selection you're used to when specifying a VERSTEEL table, it's easy to create a TIM that's right for the job.

By David R. Gutzell, exclusively for Versteel.

IT'S COOL TO WORK WITH TIM.

AVAILABILITY

CHOOSE FROM TILT, NEST AND FOLD WITH TIM V2 BASES, TILT AND NEST WITH TIM MEETING Y3 BASES, OR THE STABILITY OF FIXED MOBILITY WITH TIM MEETING R4 BASES. REFER TO THE VERSTEEL PRICE LIST FOR COMPLETE SPECIFICATIONS AND AVAILABILITY, BUT BE SURE TO CHECK WWW.VERSTEEL.COM BECAUSE WE'RE ADDING NEW FEATURES ALL THE TIME.

TRAINING Working with versatility. Specify a table that is loaded with every option or one that is custom tailored to fit individual needs. **CONFERENCE** Meeting with more than anticipated. Accommodate additional seating requirements by quickly adding sterns to either end of TIM Meeting rectangle or arc rectangle shapes. **STORAGE** Managing space. With modesties, wire management and power/data you can still tilt and nest, or fold and store on the cart; either way will free up valuable space when tables are not in use. **ADJUSTABILITY** Getting the right height. TIM tables with push-button height adjustment allow you to create a work surface for wheelchair accessibility (32"), standard seated tasks (29") or even lower if needed (27").

WWW.VERSTEEL.COM **TIM Gallery**. The images in this brochure, and volumes of others, can be found at the VERSTEEL web site and are available for downloading as both high and low resolution files. Peruse these images for ideas; download them for presentations.

- 01 MEETING
